

## Bridging Gaps

Do you know seniors who have declined in health instead of getting better after attending healthcare appointments by themselves? Perhaps important information fell through the gaps because they:

- Failed to tell the doctor all they should
- Didn't hear or understand what the doctor told them
- Didn't remember what they were supposed to do next
- Were unable to tell others the diagnosis and follow through with the plan of care

## The Best Option for Families

Caring families want to know what is really happening to their elders so they can encourage them to follow through with healthy options. But they can't always go with their loved ones to their appointments. That is where ElderBridge can be the best option.

**ElderBridge Partners have experience caring for others. They have been carefully screened, are licensed and insured, and value safety, kindness and respect while serving our clients.**

## Communication, Advocacy and Transportation

All ElderBridge service plans include:

- Visiting with the senior and family to understand the current problems
- Managing transportation to and from the appointment
- Hearing for, speaking for, and advocating for the elder as needed
- Understanding the options or treatment plan and communicating well to the family or caregiver

## Personalized Affordable Service

Elders are enrolled for a set fee, then an agreed upon hourly rate is charged for **Basic** services listed above.

**Additional Monthly and Daughter Plan services can include these and more:**

- Evaluation of compliance and effectiveness of treatment
- Delivery and set up of medications
- Reminders by phone or in person
- Wound and ostomy care turned over to the client to do at home

## Preventing Unnecessary Hospitalizations

ElderBridge is dedicated to preventing unnecessary hospitalizations that too often happen when declining seniors miss healthcare appointments or attend them without a supportive navigator.

## Independence and Peace of Mind

Perhaps the most important reason to partner with ElderBridge is the peace of mind you have knowing a qualified advocate is at the side of your elder doing everything possible to assure he or she is safe, and communicating with you in a timely manner so you know for sure what's going on.

## Owner-Operated Business

ElderBridge SoCal is owned and operated by Sharon Sparks, a retired registered nurse. Bridging gaps for elders has been her passion for over 25 years.

**ElderBridge SoCal has been certified by Community Senior Services as a "PREFERRED SERVICE PROVIDER."**

*"ElderBridge has literally been my lifeline!"*
